

MORRAY WALTHAMBURY

BY THE SACK FILLING COMPANY

M425

M425

Incorporating all the best features of The Sack Filling M320, the M425 offers 30% higher throughput than the M320. It represents a cost effective, single station, high throughput bagging solution for the new generation 10 tonne per hour grading lines.

- Fills up to 425 bags per hour of potatoes, carrots, root crops or processed vegetables into paper, hessian or plastic bags.
- Non lube pneumatic components eliminate the need for messy oiling and reduce maintenance.
- Rugged steel chassis construction continues to guarantee the legendary durability of The Sack Filling machines.
- Pneumatically assisted trickle feed system offers rapid and simple top up adjustment for varying products.
- Chassis construction eliminates soil build up on the moving mechanism.

Optional Extras

- Wide range of cleated belts to suit different products.
- Electronic bagging system.
- All contact parts are rubber lined for complete produce protection.
- Spigoted bag clamp assembly for rapid clamp change over
- Compatible with automatic sack placing, conveying and sealing system from the Sack Filling range.
- Adjustable sack platform when a conveyor is not required.
- Carton tray support roller platform
- Dust extraction hood for dusty materials.
- Independent belt adjusters.
- Stainless steel, food quality construction.
- Modifications to allow for use between 5kg - 25kg.
